

Trapezoidal GABION 700 Units

Trapezoidal gabions are formed by welding the intersection of the wire grid to give the required sized mesh panels. Please contact our sales team to get further details.

Typical units are given below:

Unit Designation	Unit Length in Meters	Unit width in meters	Unit Height in meters
T1 - 2x0.6x0.7	2.06	0.61	0.68
T1 - 2x0.75x0.7	2.06	0.76	0.68
T1 - 2x0.9x0.7	2.06	0.91	0.68
T1 - 2x1.05x0.7	2.06	1.07	0.68
T1 - 2x1.2x0.7	2.06	1.22	0.68
