

CASE HISTORY: PARKSIDE PLACE, BRENT (PREVIOUSLY KNOWN AS BARHAM PARK)

ARCHITECTS: Frank Reynolds Architects

GABION CONTRACTOR: O'Halloran & O'Brien

DESIGN, MANUFACTURE & SUPPLY: Hy-ten Gabion Solutions

Project Background: Countryside Properties and Notting Hill Housing Trust were redeveloping the site at Parkside Place. All existing properties were demolished, in three separate phases and a total of 338 units have been rebuilt on the site.

Hy-ten were initially approached by O'Halloran & O'Brien in the summer of 2016 to advise and provide a design for the gabion cladding feature to the entrance. Gabions units were manufactured in 76.2mm x 76.2mm x 4mm triple life coated welded mesh and were filled with Limestone.

If you would like Hy-Ten to design and supply gabions & land reinforcement products for you, please contact us on 01902 712200.
